

**IS YOUR PEO PREPARED FOR A  
DEVASTATING DATA BREACH?**

**WE CAN HELP.**

**COMPLIANCE & DATA SECURITY**

# EXPLORE OUR PEO PLAN FOR COMPLIANCE & DATA SECURITY.

## The cost of a security breach is always higher than the cost of protection.

The best way to protect a business from a data security breach is to have thorough IT safeguards, policies and procedures, and effective employee data security training. Most companies actively protect their IT with robust security measures, but invest less when it comes to policies, procedures, and training. That's where First Watch comes in. Here are some of the ways we can support your compliance and data security efforts.

## PEO RESOURCE PLAN

### COMPLIANCE RESOURCES

#### RISK ASSESSMENTS

It's critical for any business to understand risks associated with personal information, trade secrets, and more. Our online Organizational and Operational Risk Assessments help you understand those risks. We focus on business practices, policies and safeguards.

#### SAMPLE POLICIES, CHECKLISTS & RESOURCES

*with updates*

Developed by our Jackson Lewis legal team, we provide key policies that help keep your personal data private and secure as required by a growing body of law. Also included are checklists and other resources to help track and document your compliance efforts.

#### STATE LEGISLATIVE RESOURCE CENTER

Laws in 48 states affect businesses and their access to personal information. You need to be compliant to those laws in any states where you conduct business. Our PEO Plan provides centralized, easy online access to state legislation along with FAQs for each state.

#### WISP

*Written Information Security Program*

A WISP is intended as a set of comprehensive guidelines and policies designed to safeguard all sensitive data maintained by you and to comply with applicable laws. You receive WISP at a significantly discounted cost, subsidized by First Watch.

#### LEGAL CONSULTATION

Your legal obligations are key. Our PEO Plan includes 5 to 10 hours of personalized WISP consultative services. And, we cover the cost of up to 1 hour of consultation on the topics of *Executive Briefing* and *A Roadmap to Compliance* with the Chair of Jackson Lewis' Data Privacy and Security Practice Group, Joe Lazzarotti, Esq., CIPP. Also included is pre-breach legal access to our Data Security Attorney Hotline.

#### WEBINAR

PEO's should take note that some of the factors that make small businesses attractive customers also may put your PEO at higher risk for data breaches. Jackson Lewis and First Watch will deliver a 45-minute webinar covering key data security compliance and risk management issues with ample time for questions and answers.

#### BREACH TABLETOP EXERCISES

Internal breach simulations are critical to being prepared for the urgency of breach response mandates. Your simulation can be conducted in one of two ways. You can perform the exercises yourself using our online Breach Tabletop Exercises. Or, it can be guided at your location by Joe Lazzarotti, Esq., CIPP, chair of Jackson Lewis' Data Privacy and Security Practice Group, at a preferred price subsidized by First Watch for 5 to 10 hours.

#### DATA BREACH REACTION GUIDE

In the event of a data breach, First Watch provides resources to help you respond promptly and compliantly. Your plan includes a Data Breach Reaction Guide that shows the steps to orderly data breach response. Topics include insurance, involving company leadership, law enforcement, setting up a call center and more.

#### DATA BREACH REACTION SERVICES

*available at preferred pricing*

React effectively and compliantly. You get preferred pricing with all crisis management services typically associated with a data breach security event.

# DATA SECURITY TRAINING IS INCLUDED FOR INTERNAL EMPLOYEES.\*

## First Watch data security training helps employees from the entry level to the CEO.

For successful data breach prevention, everyone in a company must participate. Our comprehensive training plan is included for all your internal employees. Video instruction, testing, and follow-up provide the tools you'll need to prepare for and prevent data breaches. It's invaluable training for data security.

### PEO RESOURCE PLAN — EMPLOYEE TRAINING

#### 3-part plan:

- Data breach security training videos
- Phishing intrusion simulation testing
- Monthly continuing education

#### The one-year plan includes:

- Initial 10-part video training series with online quizzes
- Weekly progress reports emailed to the employer
- Employee reminder emails until training is complete
- Results compiled in an easy-to-read online dashboard
- Six-month review for employees to watch videos again with new quiz questions
- Phishing intrusion simulation testing on a periodic basis
- Monthly data security educational newsletter

**PREPARE. REACT.  
REDUCE RISK.**

Our Employee Training Videos are laser-focused on data breach protection: just three to four minutes long to maximize your time and investment. Each video comes with a brief online quiz that employees take after viewing. Results are compiled and delivered to you in an easy-to-read online dashboard. This helps determine where employees stand in terms of data security and when someone may need a refresher on proper company policies and procedures.

#### INITIAL 10-PART VIDEO SERIES

1. Employee Awareness
2. Phishing
3. Data Breach Preparedness
4. Confidential Information
5. Passwords
6. Mobile Devices
7. Physical Security
8. Electronic Communications
9. Data Destruction
10. Minimum Necessary

Phishing Intrusion Simulation Testing consists of periodic phishing emails sent to employees to safely test if they are clicking links in suspicious emails. If the link is clicked on, a page displays to inform the employee this was an example of a phishing email that hackers use to get into a company's computer system. Results of the phishing tests are provided online.

\*Does not include worksite employees (WSE)

# THE FIRST WATCH DATA BREACH RESOURCE PLAN IS MADE FOR YOU.
